

## Ekata School Fight Against Covid-19 Report

Covid -19 task force meeting on May 6 2020 came up with the strategies for school management and continuing the educating to the student. The task force decided to:

- Print the assignment and delivered at home every morning
- Next morning collect the completed assignment and deliver new assignment
- Students facing problem in doing assignment make them understand through mobile and
- Rest 15 % will be contacted and assignment will be provide through face book and use of mobile

Due to the restriction in mobility in the beginning of the lockdown period assignment and study material was provided through Facebook Page . After mobility restriction was over and with suggestions from patents, the idea of delivering the assignment at students' home was changed to parents collecting the assignment from school every week and after a week they again came to drop the completed assignment and collect the new one. School provided the books at a discounted rate to the parents from the school before delivering the assignment . Note books were distributed along with the books.

### Expenses Details :
